

<b>SUBJECT and GRADE</b>	<b>CAT Grade 12</b>	
<b>TERM 2</b>	<b>Week 1</b>	
<b>TOPIC</b>	<b>Network technologies</b>	
<b>AIMS OF LESSON</b>	Understanding Wide Area Networks and the Internet as an example	
<b>RESOURCES</b> <i>(Indicate what will be used in the lesson e.g. textbook, Mind the Gap, etc)</i>	<b>Paper based resources</b>	<b>Digital resources</b>
	DBE Gr 12 Theory online textbook (page numbers in this document refers to this book) Any other applicable and approved text book used in schools	<b>YouTube video</b>  <b>Network types:</b> <a href="https://www.youtube.com/watch?v=4_zSIXb7tLQ">https://www.youtube.com/watch?v=4_zSIXb7tLQ</a>  <b>How does the Internet work?</b> <a href="https://www.youtube.com/watch?v=7_LPdttKXPc">https://www.youtube.com/watch?v=7_LPdttKXPc</a> <a href="https://www.youtube.com/watch?v=x3c1ih2NJEg">https://www.youtube.com/watch?v=x3c1ih2NJEg</a>
<b>INTRODUCTION</b>	<ul style="list-style-type: none"> <li>Gr 11: LAN, WLAN, basic components of a network, Wired vs wireless, Intranet, basic security, Internet, WWW and communications, portable vs mobile, cellular data, browser, email, data, websites</li> <li>Gr 10: what is a network, aims of objectives of networks, advantages, disadvantages, Internet as an example, PAN/ HAN, modem, router, switch, communication, ISP</li> </ul>	
<b>CONCEPTS AND SKILLS</b>	Refer to the pages between brackets and read those pages attentively: <ul style="list-style-type: none"> <li>Wide area networks (WAN) <ul style="list-style-type: none"> <li>Definition, purpose and role</li> <li>Internet as example <b>(pg. 96)</b></li> </ul> </li> <li>Internet services <b>(pg. 100)</b> (uses/purpose, advantages, disadvantages, limitations, examples) <ul style="list-style-type: none"> <li>Real-time messaging - instant messaging and chat</li> </ul> </li> </ul>	<b>CAN YOU?</b>
		<b>Do the following exercises from the DBE text book after you have studied the pages as indicated in the column on the left:</b>  Activity 4.1, pg. 98  Activity 4.2, pg. 109  Activity 4.3, pg. 113  Revision activity, pg. 114
		<b>Study the pictures below after you have completed the exercises above. Answer the questions next to each picture:</b>

	<ul style="list-style-type: none"><li>• <i>Voice over Internet Protocol (VoIP)</i></li><li>• <i>File Transfer Protocol (FTP)</i></li><li>• <i>File sharing</i></li><li>• <i>Concept of grid computing and cloud computing (pg. 103)</i></li><li>• <i>Government Internet services and information such as tax return, TV licence payment and election information (pg. 107)</i></li><li>• <i>Make buying and informed decisions regarding Internet connection and access (pg. 110)</i><ul style="list-style-type: none"><li>• <i>Modem/router, types of connections, e.g. ADSL, wireless technologies, including their advantages, disadvantages and limitations</i></li><li>• <i>ISP, Internet services</i></li><li>• <i>Consideration of access points, coverage (wireless)</i></li><li>• <i>Data transmission speed - measured in kilobits per second(kbps) and megabits per second (mbps)</i></li><li>• <i>CAP, bundle</i></li><li>• <i>Concept of broadband and bandwidth</i></li></ul></li></ul>	 <p><a href="https://www.lifewire.com/">https://www.lifewire.com/</a></p>	<p>Explain the difference between a LAN and a WAN.</p>
		 <p><a href="https://getvoip.com/">https://getvoip.com/</a></p>	<p>What is the difference between a landline telephone and VoIP?</p>
		 <p><a href="https://www.brosix.com/">https://www.brosix.com/</a></p>	<p>What is IM? Write down three applications you have used in this regard.</p>
		 <p><a href="https://blog.ipswitch.com/">https://blog.ipswitch.com/</a></p>	<p>Explain what File Transfer Protocol entails.</p>

- Downloading/uploading

# FILESHARING

<https://legacytips.com/free-file-sharing-sites/>

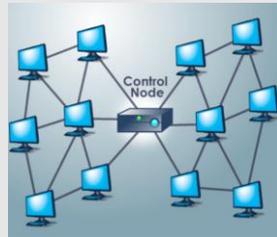

Write down an example of where file sharing could be used.

Name the terminology/ concept each of these pictures refer to and then write down a definition of each term/ concept.

<b>ACTIVITIES/ASSESSMEN / CONSOLIDATION</b>	<p><i>Answer the following questions to consolidate the work you have studied in this chapter. Make sure you know the definition of the concepts in bold:</i></p> <p><i>Also use the glossary at the end of the book (pg 221).</i></p> <ol style="list-style-type: none"><li>1. Give TWO reasons for connecting computers in a <b>network</b>. (2)</li><li>2. Which communications technology or <b>protocol</b> allows devices to connect within a <b>WLAN</b>? (1)</li><li>3. What is the purpose of an <b>ADSL router</b>? (1)</li><li>4. State TWO ways in which a user can convey emotions in an <b>IM (instant messaging)</b>. (2)</li><li>5. What are <b>FTP servers</b> and services used for? (1)</li><li>6. Which <b>hardware</b> or <b>software technology</b> is often used to control and monitor access between a <b>network</b> and the <b>Internet</b>? (1)</li><li>7. Name the device that connects a <b>LAN</b> to the Internet. (1)</li><li>8. Why would a <b>10 Mbps ADSL line</b> be unsuitable for someone who needs an upload <b>bandwidth</b> of 10 Mbps? (2)</li><li>9. How is the <b>Internet</b> different from the <b>World Wide Web</b>? (1)</li><li>10. Name a device that connects a <b>LAN</b> to a <b>WAN</b>. (1)</li><li>11. Give TWO reasons why a school may not want to use <b>cloud storage</b> for storing large volumes of data. (2)</li><li>12. What is the function of a <b>network switch</b>? (1)</li><li>13. User access rights can limit what a user can do on a network. Give TWO examples of <b>access rights</b> that restrict a user on a <b>network</b>. (2)</li><li>14.1 Give an example of a program that supports <b>VoIP</b>, other than <b>Skype</b>. (1)</li><li>14.2 Why is it not recommended to use <b>VoIP</b> for emergency calls? (1)</li><li>14.3 Why would a user reduce the quality of <b>VoIP</b> calls? (1)</li><li>15. How would one use a <b>mobile device</b> to check if a <b>hotspot</b> is available? (1)</li><li>16. How can one prevent a <b>keylogger</b> from sending information back to the <b>hacker</b>? (2)</li><li>17. What <b>network communications protocol</b> makes voice calling in many <b>IM</b> apps possible? (1)</li><li>18. Give TWO reasons why it is necessary to limit the access rights of users on a <b>LAN</b>. (2)</li><li>19. State TWO factors that should be carefully considered when choosing an <b>ISP (internet service provider)</b>, other than cost. (2)</li></ol>
---	--

	<p>20 Give TWO limitations of using an <b>ADSL connection</b>. (2)</p> <p>21 Name TWO <b>technologies/protocols</b> that use <b>encryption</b> to secure communication over a <b>wide-area network</b>. (2)</p> <p>22 What are the advantages of a <b>wireless LAN</b> over a <b>wired LAN</b>? (2)</p> <p>23. Explain why large videos <b>stream</b> slowly during office hours, but the same videos will stream faster late at night, even though you use the same computer and the same internet connection. E-mail and file downloads, however, are equally fast during the day or night. (3)</p> <p>24. You use your <b>smartphone</b> only for <b>instant messaging</b> and cellphone calls. The monthly <b>data cap</b> of 5 GB on your smartphone has been used up before the end of the month. Give TWO possible reasons why the data cap did not last the whole month. (2)</p> <p>25. State TWO <b>netiquette</b> rules for a group <b>chat</b> on <b>social media</b>. (2)</p>
<b>VALUES</b>	<p><i>Draw learners' attention to values relevant to the topic</i></p> <p><i>Link topic or concepts/skills to real life scenarios</i></p>

(Lesson compiled by: Ms E Goosen (CAT Subject Adviser – West Coast ED))
